

CEREMONY GUIDELINES

WHEN SHOULD YOU DECIDE TO HAVE YOUR CEREMONY INSIDE?

BELOW 45-55 DEGREES FAHRENHEIT

When the temperature drops below 55 - 60 degrees Fahrenheit, consider adding on a hot beverage station or our Snuggle Up & Get Cozy Package!

BELOW 45 DEGREES FAHRENHEIT

When the temperature drops below 45 degrees Fahrenheit, we advise that you hold your ceremony indoors.

BACK UP PLAN

Be sure that you and your fiancé(e) discuss with your Wedding Planner at your Final Appointment what your back up plan is.

Be decisive ahead of time so that you and your vendors are all on the same page come game-time. i.e. "At *this* time, we will move our ceremony inside if it is below *45 degrees* with a *60% chance* of rain."

On your Wedding Day, the last thing you want is to agonize over these decisions. With your Planner's help, you can put a plan in place ahead of time.

CEREMONY MUSIC

Do you have live musicians? We find that most musicians, especially those with string instruments, cannot play outdoors in temperatures below 60 degrees Fahrenheit, or with any moisture in the air. We advise that this is something you discuss with you musicians ahead of time so that you can take this into consideration when deciding where you should have your ceremony.

CEREMONY DECOR

Do you have large décor that cannot be moved easily, such as a chuppah or arbor? If so, you may need to make your decision earlier in the day.
